Type of Operation: Cafo - Commercial Animal Feeding C

County: Maricopa

Description of Complaint:

Hickmans has been getting increasingly sloppy, 3 years ago when I bought this house, maybe once a month you would get a little whiff of the Plant, and I never seen feather pollution. Starting more or less a year ago the stench started to get over whelming and fairly constant. About the last of march we were going to church at ST.Henry's and it looked like a blizzard,my wife remarked look at the' feathers. I tended to doubt it was feathers due to the outrageous quantity I was inclined to believe it was an insulation spill for the construction at hickmans. We went back later and they were indeed feathers. within a few weeks I was finding feathers in my yard, my steps and in the desert at 355th Ave and Elliot Rd. Now this SHOULD be a cause for concern as the school is north of there on 355Th. Ave. The manner in which hickmans disposes of the chickens (DePop) essentially feeding them through a shredder virtually guarantees the feathers are contaminated with fecal matter, blood borne pathogens and possibly heavy metals such as arsenic. Now I would think this would be a health issue at least.

Date of Occurrence: 03/30/14

Substance Involved: Feathers and Odor

Quantity of Substance: many pounds maybe tons

Medium Affected: Air

Best Time to Witness: Any time

County: Maricopa

Description of Complaint:

There is a Sever Stench That I get by my House at 343 and Wayland Dr. (Approx. 3 Miles from Factory) it is so Bad it forces me to Close the Doors and the Windows. This stink comes here every Day of the Week Some days are worse then others, Which makes no difference if you don't close the Doors and Windows the Stink gets in your and makes it very uncomfortable to sit and do anything such as eat, watch T,V, or even lay down to rest. I don't know how many complaints I file or any one else thAT FILES, NOTHING BUT NOTHING GETS DONE,WHY??? I Feel it's because they are Hickman's and everyone knows that the Hickman's don't have to follow any rules. And if it's it sure looks that way. The Place in Arlington Smells so bad it's unreal and the Stink goes wherever, and garbage just piled up next to the Dumpster. Not in it next to it. Maybe if my name was hickman maybe something would get done.

Date of Occurrence: 09/02/14 **Substance Involved:** Chicken Feces and Carcus

Type of Operation: Cafo - Commercial Animal Feeding C

County: Maricopa

Description of Complaint:

I am not sure if this should go to the AZDEQ or Maricopa County Air Quality because it seemed to be more smoke than dust. At Hickman's Egg Ranch in Arlington I observed and photographed a huge amount of smoke being emitted by the drying machine used to process the chicken manure. I also observed employees not wearing any protective masks or breathers for such a large emission of gases, which might involve OSHA. I was at least several hundred feet away when I took the photo of the emissions and the stench was overpowering. I also noted a large number of flies swarming around my vehicle at the time and some of the flies were of the "BITING" type. If you need the photograph as proof of the violation please email me and I will reply back with a JPG of the photo. I am a professional photographer so the photo I have is high resolution. I will be leaving Friday morning for a business trip so if you need to contact me please call or email me no later than Thursday, Oct 2nd.
